The Greatest Thesis in the World

Author Name

School of Electrical & Electronic Engineering

A thesis submitted to the Nanyang Technological University in partial fulfillment of the requirements for the degree of Doctor of Philosophy

Statement of Originality

I hereby certify that the intellectual content of this thesis is the product of my original research work and has not been submitted for a higher degree to any other University or Institution.

Supervisor Declaration Statement

I have reviewed the content and presentation style of this thesis and declare it is free of plagiarism and of sufficient grammatical clarity to be examined. To the best of my knowledge, the research and writing are those of the candidate except as acknowledged in the Author Attribution Statement. I confirm that the investigations were conducted in accord with the ethics policies and integrity standards of Nanyang Technological University and that the research data are presented honestly and without prejudice.

Authorship Attribution Statement

Please select one of the following; *delete as appropriate:

- *(A) This thesis does not contain any materials from papers published in peer-reviewed journals or from papers accepted at conferences in which I am listed as an author.
- *(B) This thesis contains material from [x number] paper(s) published in the following peer-reviewed journal(s) / from papers accepted at conferences in which I am listed as an author.

Please amend the typical statements below to suit your circumstances if (B) is selected.

Chapter 4 is published as D.T. Murphy, S. Schmid, J.R. Hester, P.E.R. Blanchard, and W. Miiller. Coordination site disorder in spinel-type LiMnTiO4. Inorganic Chemistry 54, 4636-4643 (2015). DOI: 10.1021/ic502747p.

The contributions of the co-authors are as follows:

- A/Prof Schmid provided the initial project direction and edited the manuscript drafts.
- I prepared the manuscript drafts. The manuscript was revised by Dr Hester and Dr. Blanchard.
- I co-designed the study with A/Prof Siegbert Schmid and performed all the laboratory work at the School of Materials Science and Engineering and the Singapore Synchrotron Light Source. I also analyzed the data.
- All microscopy, including sample preparation, was conducted by me in the Facility for Analysis, Characterization, Testing and Simulation.
- Dr James Hester assisted in the collection of the neutron powder diffraction data.
- Dr Peter Blanchard assisted in the interpretation of the X-ray absorption spectroscopy data and carried out the spectral interpretation.
- Dr Wojciech Miiller assisted in the collection and provide guidance in the interpretation of the magnetic measurement data.

Chapter 5 is published as H. V Doan, B. Yao, Y. Fang, A. Sartbaeva, U. Hintermair, V. P Ting, Controlled Formation of Hierarchical Metal-Organic Frameworks using CO2 Expanded Solvent Systems. In press, ACS Sustainable Chemistry & Engineering (2017). DOI: 10.1021/acssuschemeng.7b01429

The contributions of the co-authors are as follows:

- Prof Ting suggested the materials area and edited the manuscript drafts.
- I wrote the drafts of the manuscript. The manuscript was revised together with Dr. Sartbaeva and Dr. Yao.
- II performed all the materials synthesis, collected X-ray diffraction patterns and visible light spectra, carried transmission electron microscopy, and conducted data evaluation.
- IDr. Y. Fang conducted the Rietveld analysis of the powder X-ray diffraction data and single crystal structure determinations.
- IDr U. Hintermair conducted the molecular dynamics simulations.
- IMs. A. Sartbaeva prepared the samples for electron microscopy.

Symbols and Acronyms

Symbols

\mathcal{R}^n	the n -dimensional Euclidean space
\mathcal{H}	the Euclidean space
$\ \cdot\ $	the 2-norm of a vector or matrix in Euclidean space
$\ \cdot\ _G$	the induced norm of a vector in G-space
$\ \cdot\ _E$	the induced norm of a vector or matrix in probabilistic space
\odot	the Hadamard (component-wise) product
\otimes	the Kronecker product
$\langle\cdot,\cdot angle$	the inner product of two vectors
0	the composition of functions
∇f	the gradient vector
\mathcal{C}^k	the function with continuous partial derivatives up to k orders
$x_{i,k}$	the i -th component of a vector x at time k
\bar{x}	the vector with the average of all components of x as each element
1	all-ones column vector with proper dimension
\mathcal{C}	the average space, i.e., $span\{1\}$
\mathcal{C}^{\perp}	the disagreement space, i.e., $span^{\perp}\{1\}$
Π_{\parallel}	the projection matrix to the average space $\mathcal C$
Π_{\perp}	the projection matrix to the disagreement space \mathcal{C}^{\perp}
$O(\cdot)$	order of magnitude or ergodic convergence rate (running average)
$o(\cdot)$	non-ergodic convergence rate
\mathcal{N}_i	the index set of the neighbors of agent i

Chapter 1

Introduction

1.1 Some useful hints

My figure citation: Figure 1.1. (command: fref)

My section citation: Section 1.2. (command: sref)

My Chaptere citation: Chapter 1. (command: cref)

My Paper citation: [1]. (notice back reference to page from bibliograph)

My equation citation: (1.1). (command: eqref), or cite equation by tag: (DOP).

$$F(\theta) = \sum_{i=1}^{m} f_i(\theta)$$
 (DOP)

$$F(\theta) = \sum_{i=1}^{m} f_i(\theta)$$
 (1.1)

1.2 Major Contributions

Our main contributions can be stated as follows:

• First part: My first contributions, several lines

FIGURE 1.1: An illustration.

- Second: Second contributions, several lines
- Third name: Third contributions, several lines

1.3 Outline of the Thesis

Chapter 1 introduces \dots

Chapter 2 reviews ...

More chapters

. . . .

Chapter 2

Literature Review

2.1 Part 1

When you cite a paper [1], the back reference from bibgraph will apper as page number.

You can also cite paper with author name using the command 'citet': such as: Bauschke and Combettes [1].

2.2 Part 2

cite another paper [2].

Theorem 2.2.1 (My theorem). A great theorem.

$$c^2 = a^2 + b^2 (2.1)$$

Proof. the proof is intuitive.

Chapter 3

Chapter3 name

3.1 Section1

See Figure 3.1

FIGURE 3.1: Another illustration.

Let's cite out first table: Table 3.1.

T-1-1-	Gro	up 1	Gro	up 2		
Table	Col 1	Col 2	Col 1	Col 2		
Row 1	14.37	5.76	2.65	2.84		
Row 2	5.43	7.36	2.22	2.49		
Row 3	5.54	5.68	4.42	2.92		

Table 3.1: My Table.

Appendix A

Proofs for Part I

A.1 Proof of Lemma

$$\psi^{av}(\theta) = \frac{1}{T} \int_0^T [\psi(\theta + \mu(\tau)) + C] \otimes \frac{\mu(\tau)}{a} d\tau$$

A.2 Proof of another Lemma

$$\gamma_1(\|x\|) \le W(t, x) \le \gamma_2(\|x\|)$$

$$\frac{\partial W}{\partial t} + \frac{\partial W}{\partial x}\phi(t, x, 0) \le -\gamma_3(\|x\|)$$
(A.1)

List of Author's Awards, Patents, and Publications¹

Awards

• Best Paper Awards, "A Great System," Nature.

Patents

• A Great System, "A Great System," Nature.

Journal Articles

• My name and My colleague, "A Great System," Nature.

Conference Proceedings

• My name, My colleague 1, My colleague 3 and My colleague 3, "Greater System," in *Conference of Vision*, 2018.
